To whom this letter may concern,

My name is John Wennstrom. I'm not a local but I've been coming to Inlet for the past 3 years.

With the intention to purchase a home in your community I recently learned of the possibility your elected officials may impose rental restrictions. So I feel it is necessary to share my thoughts toward the moratorium about to be introduced to the people of Inlet.

It is under my impression that those elected to lead this community may have forgotten those of the middle class. Who rely on the extra income that provides a way to afford the very expensive homes in the area. To impose restrictions I feel will send the message that middle of the road families who seek their dream in the heart of the Adirondack's aren't welcome to this community. This will raise a conversation amongst my family whether inlet is the place we will be able to afford. If there will be restrictions seems that those who are willing to invest in your community will be forced to take a hard look. It may be determined that investing here is out of reach.

We all know a new mortgage in today's market with the crazy interest along with high taxes can make things more difficult than they need to be.

I'm a big fan of inlet and want to contribute to the area in any way I can. I do believe this moratorium if imposed will not only adversely affect this family's dreams but those who haven't been privy to this imposition.

Thank you,

John Wennstrom
